Where knowing, creating and sharing comes together in nature
Leveraging Traditional Wisdoms with Artist Technology

In this presentation, Garry Oker introduces the principles behind his mobile art exhibit and safety program, Kema, designed to train people in implementing safe thinking and teamwork in the fields of production design and technical arts through collaboration, open discussion, and connecting people, land, and spirit.

Learn about the exhibit as an example of how to create a ‘camp’ environment, building awareness and remaining mindful of ourselves and anothers, and to remain present in what we do. This fascinating project relates to mobile camping exhibits and artistic production.

Presenter: Garry Oker
By applying ceremonial safety practice, Workers come home safe
Where knowing, creating and sharing comes together in nature

Customized Leadership Practice

Where people feel rooted, connected, energized and transformed

Doig River First Nation
Where knowing, creating and sharing come together in nature
