

**Session:** Site Engineering

**No. of attendees:** 27

**Panelists:** Isaac Kinakin, Geoff McEvoy, Sean Dingley, Andrew Boettcher

**Facilitator:** -

**Monitor:** Don Parman

**Time:** 3.30pm – 5.00pm

- Questions about load cells. Who is using them? Can they be made standard? There was talk of them now being built into motors, could be a major change
- Three basic rules of engineering for an event:
  - 1- Engage an engineer experienced in live event
  - 2- Have the structure engineered
  - 3- Have an independent engineer review

These recommendations were brought forward by Andrew Boettcher.  
There are very few engineers familiar with the live event industry!
