

Session: Lessons Learned

No. of attendees: 38

Presenters: Nigel Corduff,

Facilitator: Janet Sellery

Monitor: Don Parman

Time: 9.00am – 10.30am

Goals of FSI:

- Collect and analyze all available information
- Effect change to avoid reoccurrence

Notes

- Make the Workers compensation act (RSBC 1996) Chapter 492 available online.
- Go to Queens Printer Publishing for official copy
- Part 3 of the Act is the relevant portion for our discussion.
- Part 3 was created by cloning language from other jurisdictions.
- IRS Model is how the legislation is designed
- WCA sections 112,115,116 and 117 describe general duties
- Investigators will have key questions to determine whether you are doing your due diligence in regards to a safety program:
-

Q: What questions might be asked by investigators to determine whether we're doing due diligence?

A:

- Who is your supervisor?
- Do you have a fall protection plan?
- Where are your safety policies and procedures located?

- Wooden Ladders CANNOT be painted. EVER! It impedes inspection.
- Wooden Ladders must be inspected/recertified annually.
- There was a stop use order issued for the catwalks, ladders
- Fall protection program was required as a result of the investigation.
